Style, grammar, and organization (5 pts)

Organization of the paper into logical parts with structuring of each paragraph (2).

Correct grammar, punctuation, style, length, formatting and sentence structure (2).

Paper is written in essay format, not a list of answers to questions (1).

Content (20 pts)

Essay includes an introduction that clearly states the topic to be discussed and a conclusion that wraps-up the main points of the essay. (5)

Essay accurately defines the three things that are needed for behavior to evolve via natural selection and evaluates each of these in the context of the two assigned papers. (8)

Essay evaluates how both papers utilized experimental manipulations (including experimental set-up, hypotheses, controls, and selective events) to investigate how natural selection can alter behavior. (7)
